Email : 2322ka27@kgcas.com
4. **Team Member** : Madhumitha Senthilkumar
Email : 2322ka28@kgcas.com

INTRODUCTION:

1.1 Project Overview

The Garage Management System is a valuable tool for automotive repair facilities, helping them deliver top-notch service, increase operational efficiency, and build lasting customer relationships. With its user-friendly interface and powerful features, GMS empowers garages to thrive in a competitive market while ensuring a seamless and satisfying experience for both customers and staff.

1.2 Purpose

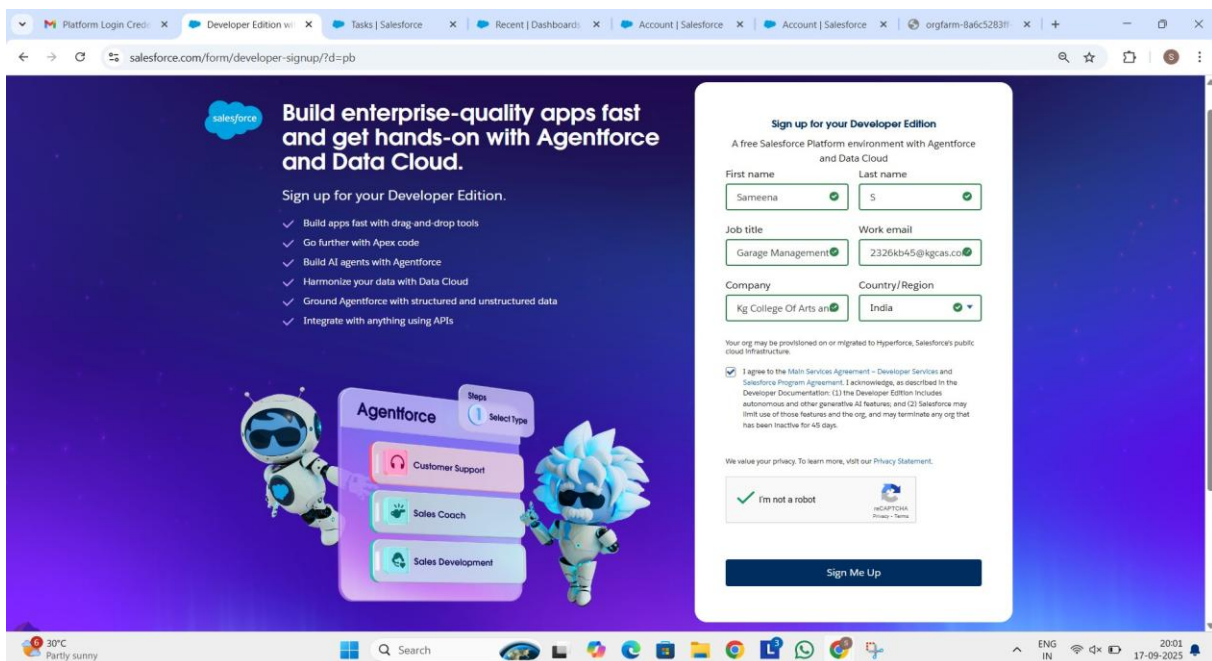

The purpose of the Garage Management System is to streamline and automate the daily operations of automotive repair facilities. It provides a centralized platform for managing customer details, vehicle information, job assignments,

repair workflows, spare parts inventory, billing, and customer feedback. By digitizing these processes, GMS enhances operational efficiency, reduces errors, ensures timely service delivery, and improves customer satisfaction. Ultimately, it empowers garages to deliver high-quality service, maintain better resource utilization, and thrive in a competitive automotive service industry.

DEVELOPMENT PHASE

Creating Developer Account:

By using this URL: <https://developer.salesforce.com/signup>

The screenshot shows the Salesforce Developer Edition sign-up page. The left side features a blue background with the Salesforce logo and the text "Build enterprise-quality apps fast and get hands-on with Agentforce and Data Cloud." Below this, it says "Sign up for your Developer Edition." and lists several benefits: "Build apps fast with drag-and-drop tools", "Go further with Apex code", "Build AI agents with Agentforce", "Harmonize your data with Data Cloud", "Ground Agentforce with structured and unstructured data", and "Integrate with anything using APIs". There is also an illustration of two AI agents, one blue and one white, interacting with a "Steps" menu that includes "Select type", "Customer Support", "Sales Coach", and "Sales Development".

The right side is a white form titled "Sign up for your Developer Edition" with the subtitle "A free Salesforce Platform environment with Agentforce and Data Cloud". The form contains the following fields:

- First name: Sameena
- Last name: S
- Job title: Garage Management
- Work email: 2326kb45@kgcas.co
- Company: Kg College Of Arts and
- Country/Region: India

Below the form, there is a checkbox for "I agree to the Main Services Agreement - Developer Services and Salesforce Program Agreement. I acknowledge, as described in the Developer Documentation: (1) the Developer Edition includes autonomous and other generative AI features; and (2) Salesforce may limit use of those features and the org, and may terminate any org that has been inactive for 45 days." and a checkbox for "I'm not a robot". At the bottom of the form is a "Sign Me Up" button.

Advantages:

Improved Efficiency:

Automates job cards, billing, and inventory, reducing manual workload.

Better Customer Service:

Stores service history, sends reminders, and ensures timely updates.

Accurate Billing:

Reduces errors in labor charges, parts costs, and taxes.

Inventory Control:

Tracks spare parts availability and prevents stockouts or overstocking.

Data Management & Reporting:

Provides detailed reports on jobs, revenue, and performance.

Disadvantages:

Initial Setup Cost:

Purchasing or developing the system can be expensive.

System Dependency:

Heavy reliance on the software may cause disruptions if technical issues occur.

Maintenance & Updates:

Requires regular software updates and possible IT support.

Data Security Risks:

Sensitive customer and financial data must be properly secured.

Internet/Power Dependency:

Cloud-based or online systems may face downtime without connectivity.

Conclusion:

The Garage Management System (GMS) plays a vital role in modernizing and streamlining the operations of automotive repair facilities. By automating job scheduling, inventory tracking, billing, and customer communication, it enhances efficiency, accuracy, and service quality. While the system may require initial investment, training, and ongoing maintenance, the long-term benefits—such as improved customer satisfaction, optimized resource management, and increased profitability—far outweigh the challenges. Overall, GMS provides a reliable and effective solution for garages to stay competitive in the rapidly evolving automotive service industry.

Appendix:

Source code: Apex class and triggers

Apex classes: AmountDistributionHandler

```

public class AmountDistributionHandler {

    public static void amountDist(List<Appointment__c> listApp) {
for (Appointment__c app : listApp) {          if
(app.Maintenance_service__c == true && app.Repairs__c == true &&
app.Replacement_Parts__c == true) {          app.Service_Amount__c
= 10000;
        } else if (app.Maintenance_service__c == true &&
app.Repairs__c == true) {
app.Service_Amount__c = 5000;
        } else if (app.Maintenance_service__c == true &&
app.Replacement_Parts__c == true) {
app.Service_Amount__c = 8000;
        } else if (app.Repairs__c == true && app.Replacement_Parts__c
== true) {
app.Service_Amount__c = 7000;
        } else if (app.Maintenance_service__c == true) {
app.Service_Amount__c = 2000;          } else if
(app.Repairs__c == true) {
app.Service_Amount__c = 3000;
        } else if (app.Replacement_Parts__c == true) {
app.Service_Amount__c = 5000;
        }
    }
}
}
}

```

Apex Triggers: AmountDistribution

```

trigger AmountDistribution on Appointment__c (before insert, before
update) {
    if (Trigger.isBefore && (Trigger.isInsert || Trigger.isUpdate)) {

```

```
AmountDistributionHandler.amountDist(Trigger.new);
```

```
}
```

```
}
```
